Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

The "Hybrid Project Management Approaches" course is designed to equip professionals with the knowledge and skills necessary to effectively integrate various project management methodologies. This course will help participants to customize project management strategies to meet the unique needs of their projects, enabling them to deliver successful outcomes in dynamic environments. With a focus on practicality, the course blends traditional Waterfall and Agile approaches with innovative hybrid techniques.

- Understand the fundamentals of traditional and Agile project management methodologies.
- Analyze the benefits and drawbacks of different project management approaches.
- Learn how to create a customized hybrid project management framework.
- Develop skills to implement hybrid approaches in real-world projects.
- Enhance stakeholder collaboration and communication using hybrid methods.

Course Outlines
