

London TDM

Procurement and Supply Chain Management Training Courses

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 08 February 2026 To 12 February 2026

Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

In the face of increasing global uncertainties and disruptions, managing supply chains has become more complex than ever. This 5-day professional course, "Managing Disruption in Global Supply Chains," is designed to equip supply chain managers and professionals with the knowledge, tools, and strategies necessary to navigate and mitigate disruptions effectively. Participants will gain insights into risk assessment, supply chain resilience, and innovative practices to optimize supply chain performance in an unpredictable environment.

- Understand the sources and types of supply chain disruptions
- Develop strategies to build resilient supply chains
- Analyze the role of technology in managing disruptions
- Explore case studies of successful disruption management
- Apply risk management frameworks to supply chain operations

Course Outlines

Day 1: Understanding Supply Chain Disruptions

- Introduction to Global Supply Chain Dynamics
- Identifying Types and Sources of Disruptions
- Impact of Political and Economic Factors on Supply Chains
- Case Studies: Historical Disruptions and Responses
- Discussion: Participants' Experiences with Disruptions

Day 2: Building Resilient Supply Chains

- Principles of Supply Chain Resilience
- Designing Flexible and Adaptive Supply Networks
- Strategies for Reducing Vulnerability
- Implementing Contingency Planning
- Workshop: Developing a Resilience Roadmap

Day 3: Technology's Role in Disruption Management

- Leveraging Technology for Supply Chain Visibility
- AI and Machine Learning in Predictive Analytics
- Blockchain for Enhanced Transparency
- Case Study: Digital Transformation in Supply Chains
- Hands-on Session: Implementing Supply Chain Technologies

Day 4: Risk Management in Global Supply Chains

- Introduction to Risk Management Frameworks
- Risk Assessment and Prioritization Techniques
- Developing Risk Mitigation Strategies
- Integrating Risk Management into Supply Chain Strategy
- Interactive Session: Risk Management Simulation

Day 5: Innovations and Future Trends

- Exploring Emerging Trends in Supply Chain Management
- Innovations for Disruption-Ready Supply Chains
- Sustainability and Ethical Considerations
- Roundtable Discussion: The Future of Global Supply Chains
- Course Review and Action Plan Development
