London TDM

Health, Safety, and Environment (HSE) Training

Course Venue: United Kingdom - London

Course Date: From 08 February 2026 To 12 February 2026

Course Place: London Paddington

Course Fees: 7,500 USD

Introduction

The "Permit to Work and Safety Clearance Systems" course is designed to equip participants with the necessary knowledge and skills to effectively implement and manage permit-to-work systems. This course will cover fundamental principles, key components, and best practices for ensuring workplace safety and compliance with legal requirements. Participants will gain a comprehensive understanding of procedures, roles, and responsibilities required for safe operations.

Objectives

- Understand the purpose and importance of permit-to-work systems.
- Identify different types of permits and their applications.
- Learn how to implement and manage safety clearance systems effectively.
- Recognize legal and regulatory requirements related to work permits.
- Develop skills to assess risks and ensure safety compliance.

Course Outlines
