Introduction

This 5-day professional course on "IT Vendor and Outsourcing Management" is designed to equip individuals with the essential skills and knowledge required to effectively manage IT vendor relationships and outsourcing contracts. Through a series of focused modules, participants will learn best practices, negotiation techniques, risk management strategies, and performance evaluation methods to ensure successful vendor and outsourcing engagements.

- Understand the fundamentals of IT vendor management and outsourcing.
- Learn strategies for effective vendor selection and negotiation.
- Develop skills for managing vendor performance and mitigating risks.
- Gain insights into legal and contractual considerations in outsourcing.
- Enhance the ability to align vendor capabilities with organizational goals.

Course Outlines
