Introduction

In today's dynamic business environment, organizations must embrace digital transformation to stay competitive and relevant. This course, "Leading Digital Transformation Initiatives," is designed for professionals seeking to drive change and innovation within their organizations. Over the span of five days, participants will gain insights into the strategic, technological, and human aspects of digital transformation, enabling them to lead successful transformation initiatives.

Objectives

- Understand the key components of digital transformation.
- Learn to develop and execute a digital transformation strategy.
- Identify and manage challenges associated with digital change.
- Explore technological enablers of transformation.
- Develop leadership skills for guiding teams through change.

Course Outlines

Day 1: Understanding Digital Transformation

- Introduction to digital transformation and its importance.
- Exploring the current digital landscape and trends.
- Characteristics of a digital-first company.
